

Airing an anti-Kerry documentary days before the election does not serve the public interest. We need to know what the candidates stand for now, what they plan to do as president, and how this will effect us. Sinclair's plan to make their stations air this documentary seems to be to serve their own intersts and not those of the public. Please stop them from showing this documentary at this time. If they do show it they need to balance it with a pro-Kerry documentary or a documentrary like Farenheit 911.
